

LCCI Business Delegation to South Africa, Swaziland and Mauritius

6th - 17th May 2017

The Lahore Chamber of Commerce & Industry

The Lahore Chamber of Commerce and Industry (LCCI) is the oldest and largest trade body in Pakistan with strong credentials having a large membership base standing around eighteen thousands members. LCCI's history dates back to the early part of the last century. It has served the business community with great dexterity for almost 80 years consisting of four main phases including: pre-1923 as part of Punjab-Haryana-Delhi Chamber of Commerce and Industry; 1923-1947 as Northern India Chamber of Commerce and Industry; 1947-1960 as West Pakistan Chamber of Commerce and Industry; and eventually as LCCI since 1960. We also take great pride in LCCI being the first ISO certified Chamber in Pakistan.

A 32-Member Executive Committee headed by a President, Senior Vice President and Vice President as office bearers manages this premier institution. The Managing Committee members are elected through annual election for a 2-year term to work for the betterment of the business community on honorary basis.

LCCI's prime objective is to serve its members to their utmost satisfaction. It acts as a bridge between the government and the business community, and is regularly consulted by the government and international agencies on important national and international policy matters. In addition to its regular advisory and support services to the members, it actively promotes regional and international economic cooperation and trade. The Lahore Chamber is involved in extensive research used in nearly every discipline, formulating recommendations and analyzing various national and international policies affecting business, trade and industry.

It is committed to make effective contribution to the nation's economic development through the promotion of trade and industry. LCCI is also playing an important role in exploring the potential markets for the promotion of Pakistan's exports through organization and participation in International Trade Fairs and exhibitions in CIS, UAE, Fareast, USA, Europe and Africa.
